

No Salt. No Hassle.

Introducing nuvoH2O.
The healthy,
salt-free water softener
that uses citrus.

or

Carefree Maintenance

For years, water softeners have meant buying, lugging and dumping salt into the water softener. Salt is the number one reason for not buying a new softener. Additionally, many owners of traditional salt-based softeners fail to properly maintain, or have even abandoned their systems due to the hassle of salt.

Introducing nuvoH2O with Citrus instead of salt. A single nuvoH2O cartridge is the equivalent of hundreds of pounds of salt and lasts six months or more. When empty, it takes just a few minutes to change cartridges; all at about the same cost of salt.

Experience the benefits of softened water without the hassle of salt.

Benefits

- Removes Existing Hard Water Scale and Prevents Scale Build-up
- Eco-Friendly – No Salt, No Waste Water, No Electricity
- Compact Design – Fits Almost Anywhere
- Extends the Life of Your Water Heater, Plumbing Fixtures and Appliances
- Innovative, Proprietary Technology Developed from Over 25 Years of Commercial Experience
