## nuvoH<sub>2</sub>O Makes a Difference

For years, millions of households have suffered from the devastating effects of hard water. Scale clogs and corrodes pipes, fixtures and appliances while decreasing their life and efficiency. nuvoH<sub>2</sub>O, a softener which uses citrus instead of salt, is based on the same FDA-approved formulation that has protected commercial restaurants and kitchens for more than thirty years. Tested and proven in some of the most grueling environments, nuvoH<sub>2</sub>O brings

professional strength scale prevention and removal to your home. Compact and efficient, the nuvoH<sub>2</sub>O system fits almost anywhere. It's easy to install and requires no drain, no electricity, no soft water loop, no brine tank, and no calibration. With nuvoH<sub>2</sub>O, there is no back-breaking salt to haul and no water-wasting regeneration cycle. Simply change the citrus cartridge twice a year. Install nuvoH<sub>2</sub>O today and renew the life and performance of your plumbing, fixtures, water heaters and appliances.
