1" 90 Degree Fittings – PEX Poly	6
1" Male Adapter – PEX Brass	2-4 system dependent
1" T Adapter – PEX Poly	2
1" Copper Crimp Rings	28

### Parts to be Provided by Installer:

Part	Quantity
1" PEX Pipe	10'+
1" to 1" Sharkbite Straight	2*
1" to 1" Sharkbite 90 Degree	2*
¾" to 1" Sharkbite Straight	2*
¾" to 1" Sharkbite 90 Degree	2*
Teflon Tape	Always have two rolls
Tapcon screws	2
Extra 1" Crimp Rings	You will get 2 extra in the product install kit but you never know if you will get one that's misformed or have to remove one and redo.
Extra PEX 90 degree, straight connector, T, Male adapter	It's just a good idea in case you break a fitting on the job

\*You will only use 2 of these six fittings but you won't know which ones you'll use until you arrive at the job.

### Parts you Should Carry:

Part	Quantity
CitraCharge packets (samples you buy from NuvoH2O) – when done with install you should leave one behind with customer and tell them to use it in their dishwasher so they see immediate results from NuvoH2O	10+
2"x4" lumber segments cut to 24" lengths – this will allow you to mount either a 2 housing or single housing unit across almost any stud spacing	
Wood drill bits – in case you need to predrill lumber segments
